SUMMARY

Dedicated UI/UX Designer based in Ho Chi Minh City with expertise in creating user-friendly interfaces and interactive solutions. Proficient in Figma and other UI/UX design tools, with a strong grasp of UX principles and best practices. Experienced in developing wireframes, prototypes, and visual design components, and skilled at collaborating with cross-functional teams to deliver high-quality products. Excellent communication skills and a passion for working in team-oriented environments.

EDUCATION

Birmingham City University
University of Information Technology

Major: *Computer Science*

2021 - 2024

GPA: 8.28/10

CERTIFICATION

IELTS

7.0

2022 - 2024

PROJECT

Sort-iT - Trash Sorting App

Designed a waste sorting mobile app with an intuitive UI that promotes user engagement through interactive elements. Conducted user testing to ensure a seamless user experience.

Tools: Figma, Useberry

([Figma Prototype](#))

Lichu - a task management and calendar application

Developed a task management app with a modern, user-friendly interface using Jetpack Compose and MVVM pattern.

Tools: Jetpack Compose, Kotlin

([App Demonstration](#)/[GitHub Project](#))

Enhancing Personal Style - Clothing Recommender System

Built a web-based system using hybrid filtering algorithms to offer personalized style recommendations.

Tools: Python, Flask, HTML, CSS, JavaScript

([App Demonstration](#)/[GitHub Project](#))

PORTFOLIO
